**Complete Career History**

**Martin Svitak, RIBA, PMP, Chartered Architect**  
**Senior Design Leader | Developer-Side & Mixed-Use Projects**

**February 2026**

## COMPREHENSIVE PROJECT RECORD

This document provides a complete chronological record of 26 years of progressive international experience across the Middle East, Asia, and Europe.

All projects listed demonstrate progressive development of design leadership capabilities. Projects featured in Part 2 (Selected Projects) are indicated with [▶] markers.

### ORGANIZATION

Projects are organized by career phase, reflecting role progression from early-career architectural practice through current strategic design leadership:

2023-Present: NEOM – Portfolio Design Governance (KSA)  
2021-2022: WS Atkins – Lead Design Manager (UAE)  
2018-2020: Woods Bagot – Associate & Project Leader (UAE)  
2014-2018: Sobha Developers – Head of Design Management (UAE)  
2010-2014: Woods Bagot – Senior Architect (UAE, Qatar, Bahrain)  
2006-2010: Construction Delivery – Site Leadership (Bahrain)  
2000-2006: Early Career – European & Asian Practice

### GEOGRAPHIC COVERAGE

- 20 years Middle East (UAE, KSA, Qatar, Bahrain)
- 2 years Asia (Macau SAR, China)
- 5 years Europe (Czech Republic)

### CAREER PROGRESSION:

Designer (1995-2003) → Architect (2003-2006) → Site Architect/Manager (2006-2010) → Senior Architect (2010-2014) → Project Architect (2014-2016) → Head of Design Management (2016-2018) → Lead Design Manager / Associate (2018-2022) → Senior Design Manager, Portfolio Governance (2023-Present)

### CLIENT PROFILE:

PIF entities (NEOM, QIC), Major UAE developers (Emaar, Aldar, Dubai Properties, Sobha, MAF), Government entities (Media Zone Authority, Qatar Petroleum), International hospitality brands (Jumeirah, Kempinski, Anantara, Six Flags)

### PROJECT TYPOLOGIES:

Master planning & urban design, Mixed-use developments, Residential (high-rise, mid-rise, villas), Hospitality (5-star luxury, themed resorts), Entertainment & leisure, Commercial & office, Cultural & institutional, Infrastructure & public realm, Entertainment & leisure, Commercial & office

### TOTAL PORTFOLIO DELIVERED:

50+ projects

## 2023-PRESENT | NEOM – KINGDOM OF SAUDI ARABIA

**Position:** Senior Design Manager – Portfolio Design Governance

**Reporting to:** Project Design Director

### [▶] THE LINE, Phase 1 – Detailed Master Plan NEOM, Kingdom of Saudi Arabia

**Client:** Public Investment Fund (PIF)

**Timeline:** January 2023 – February 2024

**Scale:** 4M m<sup>2</sup> GFA | 100,000 population

**Stage:** Detailed Master Plan Competition

**Consultants:** Morphosis, DMAA, Fuksas, Gensler, Aecom

#### **Description:**

Detailed Master Plan of THE LINE Phase 1 development – the iconic vertical city megaproject at the center of the NEOM Region and Saudi Vision 2030. The vertical city masterplan included a city structure of dimensions 500m H, 200m W and 2.4km length in Phase 1.

#### **Responsibilities:**

- External design consultants' coordination, international workshops (Morphosis, DMAA, Fuksas, Gensler, Aecom)
- Internal expert teams' coordination (15+ disciplines)
- Scope of Services preparation, variation order management
- Project planning, resource planning, risk management, change management, work complete valuation, invoice management
- NEOM governance compliance
- Executive board presentation coordination, model making and gallery presentation coordination
- Strategic advisory and reporting to Project Design Director and NEOM executive leadership
- Design governance framework authorship for 4M+ m<sup>2</sup> portfolio

### [▶] THE LINE, Hidden Marina – Detailed Master Plan NEOM, Kingdom of Saudi Arabia

**Client:** Public Investment Fund (PIF)

**Timeline:** April 2024 – January 2025

**Scale:** 1.7M m<sup>2</sup> GFA

**Stage:** Master Plan Competition

**Consultants:** Ateliers Jean Nouvel (AJN)

#### **Description:**

Detailed Master Plan of development surrounding the man-made bay at the center point of THE LINE project. Design led by Ateliers Jean Nouvel studio. The project included mixed-use asset development including the bay water body, water mobility systems and marina.

#### **Responsibilities:**

- Project's main point of contact
- Scope of Services preparation, variation order management
- External design consultants' coordination
- Internal expert teams' coordination
- Project planning, resource planning, risk management, change management, work complete valuation, invoice management
- NEOM governance compliance

- Reporting: Project Design Director

## [▶] THE LINE, Neighbourhood Test-Fit Competition – Preconcept Design NEOM, Kingdom of Saudi Arabia

**Client:** Public Investment Fund (PIF)

**Timeline:** February 2024 – April 2024

**Scale:** 500K m<sup>2</sup> GFA

**Stage:** Preconcept Design

**Consultants:** Morphosis, PLP, Benoy, UN Studio, Woods Bagot, Gensler, and others

### **Description:**

International design competition to explore preconcept design of multiple neighbourhoods within THE LINE Phase 1 project. The competition involved 40 shortlisted world's renowned consultants.

### **Responsibilities:**

- Leading 9 external design consultant teams' coordination, international workshops
- Internal expert teams' coordination including development, infrastructure, cost, sustainability, mobility, core real estate
- Scope of Services preparation
- Project planning, resource planning, risk management, change management, work complete valuation, invoice management
- NEOM governance compliance
- Strategic advisory to Project Design Director and NEOM executive leadership, providing decision support on design quality, consultant performance, programme risk, and delivery readiness across portfolio
- Design governance framework authorship for 4M+ m<sup>2</sup> portfolio, establishing standards, workflows, and approval protocols enabling scalable multi-phase delivery

## THE LINE, Stage 3A Project Readiness NEOM, Kingdom of Saudi Arabia

**Client:** Public Investment Fund (PIF)

**Timeline:** February 2025 – Present

**Stage:** Project Readiness Framework Development

### **Description:**

Led Project Readiness workstream focused on establishing robust framework ensuring NEOM's and consultants' teams readiness for upcoming Stage 3A (Concept Design) of THE LINE Phase 1.

### **Responsibilities:**

- Authored comprehensive project frameworks including Digital Delivery, Reporting, and Stakeholder Engagement strategies
- Reporting: Project Design Director

## 2021-2022 | WS ATKINS & PARTNERS OVERSEAS - DUBAI, UAE

**Position:** Principal Architect / Lead Design Manager

### [▶] Saadiyat Grove, Phase 1 Saadiyat Island, Abu Dhabi, UAE

**Client:** Aldar Properties PJSC

**Timeline:** February 2021 – December 2022

**Scale:** 404K m<sup>2</sup> BUA | 600+ apartments | 200+ retail outlets

**Stage:** Scheme Design to Technical Design

**Status:** Construction near completion

**Description:**

Large-scale mixed-use community in the heart of Saadiyat Cultural District — a key master-planned area on Saadiyat Island focused on culture, art, living, and leisure.

**Responsibilities:**

- Main point of contact responsible for project delivery from Scheme Design to Technical Design
- Lead design management role, supported by team of 4 Senior Design Managers

- Authority submission including Estidama submission
- Quality assurance, value engineering
- Project establishment, project planning, risk management, change management

### [▶] Six Flags Qiddiya Theme Park Qiddiya, Kingdom of Saudi Arabia

**Client:** Qiddiya Investment Company (QIC)

**Timeline:** December 2021 – December 2022

**Scale:** 320K m<sup>2</sup> total park footprint | 28 attractions & rides | 35 F&B outlets

**Stage:** Detailed Design to IFC

**Status:** Target launch 2026

**Description:**

Leading design management role in delivering detailed design and IFC documentation for the major new theme park Six Flags Qiddiya – a large-scale entertainment, sports and leisure destination. It's considered a flagship destination and a significant milestone for both Qiddiya and Six Flags globally.

**Responsibilities:**

- Main point of contact responsible for project delivery from Scheme Design to IFC, ensuring coordinated multidisciplinary design including architecture, structure, infrastructure, interior design, public realm, ride integration
- Lead design management role, supported by team of 6 Senior Design Managers
- Client liaison: Development Design Director
- Quality assurance, value engineering
- Overseeing digital delivery quality of the delivery team
- Project establishment, project planning, risk management, change management

## Sheikh Zayed National Museum – Public Realm & Water Feature Saadiyat Cultural District, Abu Dhabi, UAE

**Client:** Aldar Properties

**Timeline:** May 2021 – December 2022

**Scale:** 64,400 m<sup>2</sup> NIA

**Stage:** Design to Tender Issue

**Status:** Construction complete

**Description:**

Large-scale ceremonial landscape integrating reflective water bodies, public plazas, processional routes, and specialist infrastructure, designed to complement the iconic museum architecture by Foster + Partners. Atkins were scoped to deliver public realm, landscape and water feature package.

**Responsibilities:**

- Leading delivery of design package ready for tender issue
- Design & technical delivery overview
- Quality assurance
- Interface management
- Client liaison

## 2018-2020 | WOODS BAGOT – DUBAI, UAE

**Position:** Associate & Project Leader

*(Promoted to Associate 2019)*

### ▶ La Vie Residential Tower JBR, Dubai, UAE

**Client:** Dubai Properties Group

**Timeline:** May – December 2020

**Scale:** 60,000 m<sup>2</sup> BUA | 1B+G+36 | 268 residential units

**Stage:** Scheme Design through Construction Completion

**Status:** Under construction

**Description:**

Residential tower including 268 residential units, 2 swimming pools, and beach club.

**Responsibilities:**

- Main point of contact responsible for project delivery from Scheme Design to Technical Design
- Overall coordination of all design and technical disciplines
- Client liaison: Development Director
- Authority approvals and value engineering
- Project establishment, project planning, resource planning, risk management, change management, work complete valuation, support to billing

## ▶] Creek Walk District Dubai Creek Harbour, Dubai, UAE

**Client:** Emaar Properties

**Timeline:** June 2018 – April 2019

**Scale:** 113,000 m<sup>2</sup> BUA | 5 towers (2P+G+31)

**Stage:** Concept Design to Tender Documentation

**Status:** Ready for launch

**Description:**

Residential development including 2 residential plots (5 towers), public park, and beachfront promenade.

**Responsibilities:**

- Main point of contact responsible for project delivery from Scheme Design to Technical Design
- Overall coordination of all design and technical disciplines
- Authority approvals and value engineering
- Project establishment, project planning, resource planning, risk management, change management, work complete valuation, support to billing
- Support to project launching

## Media Zone Development Saadiyat Island, Abu Dhabi, UAE

**Client:** Media Zone Authority (Government of Abu Dhabi)

**Timeline:** April 2019 – May 2020

**Scale:** 64,400 m<sup>2</sup> NIA | 30 tenants | Co-working space

**Stage:** Concept Design

**Status:** Concept stage

**Description:**

Interior fit-out for all MZA licensed companies moving to newly built MZA campus, including 30 tenants and co-working space.

**Responsibilities:**

- Leading delivery of tenancy test-fit packages for entire development
- Tenants' interviews and test-fit development and sign-off
